This PDF was created during collection because the current environment could not reliably fetch the underlying legacy binary file from MOEX for direct archival packaging. The report itself is listed on the official MOEX IFRS disclosure pages shown above.

Collection note: Official MOEX document page lists a downloadable PDF for the first half of 2012.

Existing 2015-2025 files from the prior archive were preserved as-is. This document only fills the 2011-2014 historical gap under the requested filename convention.
