Independent Auditors' Report on review of Consolidated Interim Condensed Financial Information

To the Board of Directors

United Company RUSAL Plc (*Incorporated in Jersey with limited liability*)

Introduction

We have reviewed the accompanying consolidated interim condensed statement of financial position of United Company RUSAL Plc (the "Company") and its subsidiaries (the "Group") as at 30 September 2017, and the related consolidated interim condensed statements of income and comprehensive income for the three- and nine-month periods ended 30 September 2017, changes in equity and cash flows for the nine-month period ended 30 September 2017, and notes to the interim financial information (the "consolidated interim condensed financial information"). The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of consolidated interim condensed financial information to be in compliance with the relevant provisions thereof and International Financial Reporting Standard IAS 34, *Interim Financial Reporting*. The directors are responsible for the preparation and presentation of this consolidated interim condensed financial information in accordance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*. Our responsibility is to express a conclusion on this consolidated interim condensed financial information based on our review and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410 *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of consolidated interim condensed financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and

consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

We were unable to obtain and review consolidated interim financial information of the Group's equity investee, PJSC MMC Norilsk Nickel ("Norilsk Nickel"), supporting the Group's estimate of the share of profit of USD183 million and USD427 million for the three- and nine-month periods ended 30 September 2017 and USD146 million and USD516 million for the three- and nine-month periods ended 30 September 2016, respectively, other comprehensive income of USD nil million and USD28 million loss for the three- and nine-month periods ended 30 September 2017 and USD nil million for both the three- and nine-month periods ended 30 September 2016, respectively, the foreign currency translation gain in relation to that investee of USD78 million and gain of USD185 million for the three- and nine-month periods ended 30 September 2017 and foreign currency translation gain of USD16 million and USD444 million for the three- and nine-month periods ended 30 September 2016, respectively, and the carrying value of the Group's investment in the investee stated at USD3,664 million as at 30 September 2017 and USD3,580 million as at 30 September 2016. Had we been able to complete our review procedures in respect of interests in associates, matters might have come to our attention indicating that adjustments might be necessary to this consolidated interim condensed financial information.

Qualified Conclusion

Based on our review, except for the possible effects of the matter described in the Basis for Qualified Conclusion paragraph, nothing has come to our attention that causes us to believe that the consolidated interim condensed financial information as at 30 September 2017 and for the three- and nine-month periods then ended is not prepared, in all material respects, in accordance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

1 Background

(a) Organisation

United Company RUSAL Plc (the “Company” or “UC RUSAL”) was established by the controlling shareholder of RUSAL Limited (“RUSAL”) as a limited liability company under the laws of Jersey on 26 October 2006. On 27 January 2010, the Company successfully completed a dual placing on the Main Board of The Stock Exchange of Hong Kong Limited (“Stock Exchange”) and the Professional Segment of NYSE Euronext Paris (“Euronext Paris”) (the “Global Offering”) and changed its legal form from a limited liability company to a public limited company.

On 23 March 2015, the shares of the Company were admitted to listing on PJSC Moscow Exchange MICEX-RTS (“Moscow Exchange”) in the First Level quotation list. The trading of shares on Moscow Exchange commenced on 30 March 2015. There was no issue of new shares.

The Company’s registered office is 44 Esplanade, St Helier, Jersey, JE4 9WG, Channel Islands.

The Company directly or through its wholly owned subsidiaries controls a number of production and trading entities engaged in the aluminium business and other entities, which together with the Company are referred to as “the Group”.

At 30 September 2017 and 31 December 2016, the directors consider the immediate parent of the Group to be En+ Group Limited, which is incorporated in Jersey with its registered office at 44 Esplanade, St Helier, Jersey, JE4 9WG, Channel Islands. En+ is controlled by Fidelitas International Investments Corp. (a company incorporated in Panama) through its wholly-owned subsidiary. Mr. Oleg V. Deripaska is the founder, the trustee and a principal beneficiary of a discretionary trust, which controls Fidelitas International Investments Corp. thus considered to be the ultimate controlling party of the Group. Directors hold 0.25% of the Company’s shares.

As at the date of issue of this consolidated condensed financial information only En+ started to produce financial statements available for public use.

Other non-controlling shareholders are SUAL Partners Limited together with its associates (“SUAL Partners”), Amokenga Holdings Limited (“Amokenga Holdings”) and Onexim Holdings Limited (“Onexim”). Ultimate beneficiary of Onexim is Mr. Mikhail Prokhorov. Major ultimate beneficiaries of SUAL Partners are Mr. Victor Vekselberg and Mr. Len Blavatnik. Amokenga Holdings is a wholly owned subsidiary of Glencore International Plc (“Glencore”).

Related party transactions are disclosed in note 17.

The consolidated financial statements of the Group as at and for the year ended 31 December 2016 are available at the Company’s website www.rusal.com.

(b) Seasonality

There are no material seasonal events in business activity of the Group.

2 Basis of preparation

Statement of compliance

This consolidated interim condensed financial information has been prepared in accordance with International Accounting Standard No. 34 - Interim Financial Reporting and applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (“Listing Rules”).

This consolidated interim condensed financial information does not include all of the information required for full annual financial statements prepared in accordance with International Financial Reporting Standards and therefore should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended 31 December 2016.

The IASB has issued a number of new and revised IFRSs. For the purpose of preparing this consolidated interim condensed financial information, the Group has adopted these new and revised IFRSs where applicable:

Amendments to IAS 7: *Disclosure Initiative*

Amendments to IFRS 12: *Recognition of Deferred Tax Assets for Unrealised Losses*

Annual Improvements to IFRSs, 2014-2016 cycle: Amendments to IFRS 12 *Disclosure of Interests in Other Entities*

None of these developments have had a material effect on how the Group's results and financial position for the current and the prior periods have been prepared and presented.

A number of new standards and interpretations were not yet effective for the nine- and three-month periods ended 30 September 2017 and have not been applied in this consolidated interim condensed financial information.

	Effective for accounting periods beginning on or after
IFRS 9, <i>Financial Instruments</i>	1 January 2018
IFRS 15, <i>Revenue from Contracts with Customers</i>	1 January 2018
IFRS 16, <i>Leases</i>	1 January 2019
IFRS 17, <i>Insurance contracts</i>	1 January 2021
IFRIC 22, <i>Foreign Currency transactions and advance considerations</i>	1 January 2018
IFRIC 23, <i>Uncertainty over income tax treatments</i>	1 January 2019

The adoption of the pronouncements listed above is not expected to have a significant impact on the Group's consolidated financial statements in future periods except for those discussed below.

IFRS 15 establishes a comprehensive framework for recognising revenue from contracts with customers. IFRS 15 will replace the existing revenue standards, IAS 18, *Revenue*, which covers revenue arising from sale of goods and rendering of services, and IAS 11, *Construction contracts*, which specifies the accounting for revenue from construction contracts. The Group is currently assessing the effect of IFRS 15. Based on the assessment performed to date the Group identified that presentation of revenue in respect of contracts with provisional pricing involved may be impacted as a result of the transition. Further analysis is still ongoing.

IFRS 9 will replace the current standard on accounting for financial instruments, IAS 39, *Financial instruments: Recognition and measurement*. IFRS 9 introduces new requirements for classification and measurement of financial assets, calculation of impairment of financial assets and hedge accounting. The major impact from the transition is related to introduced expected credit loss model which results in the earlier recognition of credit losses and is more forward looking than the now applied incurred loss model. The Group is currently assessing the effect of IFRS 9.

3 Significant accounting policies

The accounting policies and judgments applied by the Group in this consolidated interim condensed financial information are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2016. The adoption of other new standards and amendments did not have a significant impact on the Group.

4 Segment reporting

(a) Reportable segments

The Group has four reportable segments, as described below, which are the Group's strategic business units. These business units are managed separately and the results of their operations are reviewed by the CEO on a regular basis.

Aluminium. The Aluminium segment is involved in the production and sale of primary aluminium and related products.

Alumina. The Alumina segment is involved in the mining and refining of bauxite into alumina and the sale of alumina.

Energy. The Energy segment includes the Group companies and projects engaged in the mining and sale of coal and the generation and transmission of electricity produced from various sources. Where the generating facility is solely a part of an alumina or aluminium production facility it is included in the respective reportable segment.

Mining and Metals. The Mining and Metals segment includes the equity investment in PJSC MMC Norilsk Nickel ("Norilsk Nickel").

Other operations include manufacturing of semi-finished products from primary aluminium for the transportation, packaging, building and construction, consumer goods and technology industries; and the activities of the Group's administrative centres. None of these segments meet any of the quantitative thresholds for determining reportable segments.

The Aluminium and Alumina segments are vertically integrated whereby the Alumina segment supplies alumina to the Aluminium segment for further refining and smelting with limited sales of alumina outside the Group. Integration between the Aluminium, Alumina and Energy segments also includes shared servicing and distribution.

(b) Segment results, assets and liabilities

For the purposes of assessing segment performance and allocating resources between segments, the Group's senior executive management monitor the results, assets and liabilities attributable to each reportable segment on the following bases:

Segment assets include all tangible, intangible assets and current assets with the exception of income tax assets and corporate assets. Segment liabilities include trade and other payables attributable to the production and sales activities of the individual segments. Loans and borrowings are not allocated to individual segments as they are centrally managed by the head office.

Revenue and expenses are allocated to the reportable segments with reference to sales generated by those segments and the expenses incurred by those segments or which otherwise arise from the depreciation or amortisation of assets attributable to those segments excluding impairment.

The measure used for reporting segment results is the statement of income before income tax adjusted for items not specifically attributed to individual segments, such as finance income, costs of loans and borrowings and other head office or corporate administration costs. The segment profit or loss is included in the internal management reports that are reviewed by the Group's CEO. Segment profit or loss is used to

measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

In addition to receiving segment information concerning segment results, management is provided with segment information concerning revenue (including inter-segment revenue), the carrying value of investments and share of profits/(losses) of associates and joint ventures, depreciation, amortisation, impairment and additions of non-current segment assets used by the segments in their operations. Inter-segment pricing is determined on a consistent basis using market benchmarks.

Segment capital expenditure is the total cost incurred during the year to acquire property, plant and equipment and intangible assets other than goodwill.

During nine months ended 30 September 2017 the Group has revised its approach to segment allocation for management review and financial reporting purposes. The comparative information in respect of segment assets and liabilities as at 31 December 2016 has been revised accordingly.

Investment in Norilsk Nickel

At the date of this consolidated interim condensed financial information the Group was unable to obtain consolidated interim financial information of Norilsk Nickel as at and for the three- and nine-month periods ended 30 September 2017. Consequently the Group estimated its share in the profits, other comprehensive income and foreign currency translation reserve of Norilsk Nickel for the three- and nine-month periods ended 30 September 2017 based on publicly available information reported by Norilsk Nickel.

The Group has estimated its share of profit of Norilsk Nickel at the level of USD183 million and USD427 million for the three- and nine-month periods ended 30 September 2017, other comprehensive income at the level of USD nil million and USD28 million loss for the three- and nine-month periods ended 30 September 2017, the foreign currency translation gain in relation to that investee at the level of USD78 million and gain of USD185 million for the three- and nine-month periods ended 30 September 2017. The carrying value of the Group's investment in the investee comprises USD3,664 million as at 30 September 2017. The information used as a basis for these estimates is incomplete in many aspects. Once the consolidated interim financial information for Norilsk Nickel becomes available, it is compared to management's estimates. If there are significant differences, adjustments may be required to restate the

Group's share in profit, other comprehensive income, foreign currency translation and the carrying value of the investment in Norilsk Nickel which has been previously reported.

The market value of the investment in Norilsk Nickel at 30 September 2017 is USD7,529 million (31 December 2016: USD7,348 million). The market value is determined by multiplying the quoted bid price per share on the Moscow Exchange on reporting date by the number of shares held by the Group.

	967	819

All of the trade and other receivables are expected to be settled or recognised as an expense within one year or are repayable on demand.

(i) Ageing analysis

Included in trade and other receivables are trade receivables (net of allowance for doubtful debts) with the following ageing analysis as of the reporting dates:

	30 September	31 December
	2017	2016
	USD million	USD million
Current	334	273
Past due 0-90 days	61	32
Past due 91-365 days	7	4
Past due over 365 days	2	2
Amounts past due	70	38
	404	311

Aging analysis is performed based on number of days receivable is overdue. Trade receivables are on average due within 60 days from the date of billing. The receivables that are neither past due nor impaired (i.e. current) relate to a wide range of customers for whom there was no recent history of default.

Receivables that were past due but not impaired relate to a number of customers that have a good track record with the Group. Based on past experience, management believes that no impairment allowance is necessary in respect of these balances as there has not been a significant change in credit quality and the balances are still considered fully recoverable. The Group does not hold any collateral over these balances.

(ii) Impairment of trade receivables

Impairment losses in respect of trade receivables are recorded using an allowance account unless the Group is satisfied that recovery of the amount is remote, in which case the impairment loss is written off against trade receivables directly.

The movement in the allowance for doubtful debts during the year, including both specific and collective loss components, is as follows:

	Three months ended 30 September	
	2017	2016
	USD million	USD million
Balance at the beginning of the period	(14)	(18)

	USD million	USD million
Balance at the beginning of the period	(14)	(25)
(Impairment loss recognised)/ reversal of impairment	(1)	7
Balance at the end of the period	(15)	(18)

As at 30 September 2017 and 31 December 2016, the Group's trade receivables of USD15 million and USD14 million, respectively, were individually determined to be impaired. Management assessed that the

receivables were not expected to be recovered. Consequently, specific allowances for doubtful debts were recognised.

The Group does not hold any collateral over these balances.

(a) Loans and borrowings

Certain bank loans of the Group are secured by pledges of shares of the Group's subsidiaries and by pledges of the shares of an associate, the details of which are disclosed in the Group's consolidated financial statements as of and for the year ended 31 December 2016.

During the nine month period ended 30 September 2017 the Group released 25% less two shares of each of RUSAL Bratsk, RUSAL Sayanogorsk, 25% plus one share of SUAL, 50% less one share of RUSAL Krasnoyarsk and 40% plus one share of RUSAL Novokuznetsk from the pledge due to refinancing the Combined PXF Facility and 0.95% of shares of PJSC MMC Norilsk Nickel due to termination of respective REPO arrangements.

The secured bank loans are also secured by the following:

- inventory with a carrying value of USD480 million (31 December 2016: USD392 million);
- property, plant and equipment, receivables with a carrying amount of USD32 million (31 December 2016: USD248 million).

As at 30 September 2017 and 31 December 2016 rights, including all monies and claims, arising out of certain sales contracts between the Group's trading subsidiaries and its ultimate customers, were assigned to secure the new syndicated Pre-Export Finance Term Facility Agreement (PXF) dated 24 May 2017 and the Combined PXF Facility dated 18 August 2014, respectively.

The nominal value of the Group's loans and borrowings was USD7,318 million at 30 September 2017 (31 December 2016: USD8,852 million).

On 17 March 2017 the Group executed amendments to the existing credit facilities with Sberbank. Under USD credit agreements the interest rate was decreased from 3M Libor + 5.75% p.a. (incl. 1.05% PIK) to 3M Libor + 4.75% p.a. (subject to min 3M Libor at the level of 1%), effective from 29 December 2016. Under RUB credit facility outstanding exposure was converted into USD (at the rate of Central Bank of Russia as of the date of conversion). The interest rate of 3M Libor + 4.75% p.a. (subject to min 3M Libor at the level of 1%), is effective from 18 March 2017.

In March 2017 the Group through its subsidiaries entered into the REPO transaction backed by bonds issued by RUSAL Bratsk – in number of 7,527,646 series 08 bonds. As a result of the transactions the Group raised funding in the amount of EUR100 million (USD107 million) with fifteen months maturity at an effective rate of 2.6% p.a.

On 24 May 2017 the Group entered into a new syndicated Pre-Export Finance Term Facility Agreement (PXF) in the amount of USD1.7 billion, interest rate 3M LIBOR+3% per annum, maturity 5 years (repayment starting in 2 years). The proceeds of the facility were used for the purpose of refinancing the Groups' current debt.

In August the Group executed amendments to Gazprombank facilities, reducing interest margin from 4.5% to 3.5%, extending final maturity and adjusting covenants in line with PXF.

On 31 August 2017 the Group has agreed with Sberbank to extend final maturity under loans secured by Norilsk Nickel shares to 2024 and decrease interest margin from 4.75% to 3.75% and adjusting covenants in line with New PXF.

During the nine month period ended 30 September 2017 the Group made principal repayments in the total amounts of USD2,886 million and EUR76 million (USD102 million) under the Combined PXF Facility, credit facilities with Sberbank, Gazprombank, VTB Capital, Sovcombank and Credit Bank of Moscow.

The bonds proceeds, excluding related expenses, in the amount of USD597 million were applied for partial prepayment of RUSAL's existing pre-export finance facility. The closing market price at 30 September 2017 was USD1,019 per bond.

In February 2017 the Group registered Panda Bond Offering Circular for the total amount of RMB10 billion (c.USD1.5 billion) with the Shanghai Stock Exchange with the right to make placement in tranches with different maturities but not higher than 7 years. In March 2017 the first tranche of RMB1 billion was placed for 3 years and 5.5% per annum. In September 2017 the second tranche of RMB500 million was placed for 3 years and 5.5% per annum. The tranches are subject to put option after 2 years. The funds were used for working capital needs and refinancing of existing debt.

On 3 April 2017 RUSAL Bratsk announced a coupon rate in respect to the series 08 bonds at the level of 9% per annum for the 13-16 semi-annual coupon periods after which the series 08 bonds will be subject to

a put option and coupon rate revision. On 12 April 2017 the Group exercised a put option on the outstanding RUB-denominated bonds series 08.

In May 2017 the Group completed the offering of Eurobonds with the following key terms: principal amount of USD500 million, tenor of 6 years, coupon rate of 5.3% per annum. The bonds proceeds were applied for partial prepayment of RUSAL's debt. The closing market price at 30 September 2017 was USD1,025 per bond.

15 Derivative financial assets/liabilities

	30 September 2017		31 December 2016	
	USD million		USD million	
	Derivative assets	Derivative liabilities	Derivative assets	Derivative liabilities
Petroleum coke supply contracts and other raw materials	59	69	62	5
Forward contracts for aluminium and other instruments	27	42	5	30
Total	86	111	67	35

Derivative financial instruments are recorded at their fair value at each reporting date. Fair value is estimated in accordance with Level 3 of the fair value hierarchy based on management estimates and consensus economic forecasts of relevant future prices, net of valuation allowances to accommodate liquidity, modelling and other risks implicit in such estimates. The Group's policy is to recognise transfers between levels of fair value hierarchy as at the date of the event or change in circumstances that caused the transfer. There were no changes in valuation techniques during three- and nine-month periods ended 30 September 2017. The following significant assumptions were used in estimating derivative instruments:

	2017	2018	2019	2020	2021	2022	2023	2024	2025
LME Al Cash, USD per tonne	2,090	2,131	2,169	2,203	2,230	2,257	2,295	2,342	2,390
Platt's FOB Brent, USD per barrel	57	56	55	55	55	56	-	-	-

The movement in the balance of Level 3 fair value measurements of derivatives is as follows:

	Three months ended 30 September	
	2017 USD million	2016 USD million
Balance at the beginning of the period	27	(180)
Unrealised changes in fair value recognised in other comprehensive income during the period	-	3
Unrealised changes in fair value recognised in statement of income (finance expense) during the period	(76)	(14)
Realised portion of electricity, coke and raw material contracts	24	121
Balance at the end of the period	(25)	(70)

	Nine months ended 30 September	
	2017 USD million	2016 USD million
Balance at the beginning of the period	32	(300)
Unrealised changes in fair value recognised in other comprehensive income during the period	-	26
Unrealised changes in fair value recognised in statement of income (finance expense) during the period	(214)	(133)
Realised portion of electricity, coke and raw material contracts	157	337
Balance at the end of the period	(25)	(70)

Sensitivity analysis showed that derivative financial instruments are not particularly sensitive to changes in main inputs.

16 Commitments and contingencies

(a) Capital commitments

The Group has entered into contracts that result in contractual obligations primarily relating to various construction and capital repair works. The commitments at 30 September 2017 and 31 December 2016 approximated USD178 million and USD157 million, respectively. These commitments are due over a number of years.

(b) Taxation

Russian tax, currency and customs legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activities of the Group may be challenged by the relevant local, regional and federal authorities. Notably recent developments in the Russian environment suggest that the authorities in this country are becoming more active in seeking to enforce, through the Russian court system, interpretations of the tax legislation, in particular in relation to the use of certain commercial trading structures, which may be selective for particular tax payers and different to the authorities' previous interpretations or practices. Different and selective interpretations of tax regulations by various government authorities and inconsistent enforcement create further uncertainties in the taxation environment in the Russian Federation.

In addition to the amounts of income tax the Group has provided, there are certain tax positions taken by the Group where it is reasonably possible (though less than 50% likely) that additional tax may be payable upon examination by the tax authorities or in connection with ongoing disputes with tax authorities. The Group's best estimate of the aggregate maximum of additional amounts that it is reasonably possible may become payable if these tax positions were not sustained at 30 September 2017 is USD32 million (31 December 2016: USD225 million).

(c) Environmental contingencies

The Group and its predecessor entities have operated in the Russian Federation, Ukraine, Jamaica, Guyana, the Republic of Guinea and the European Union for many years and certain environmental problems have developed. Governmental authorities are continually considering environmental regulations and their enforcement and the Group periodically evaluates its obligations related thereto. As obligations are determined, they are recognised immediately. The outcome of environmental liabilities under proposed or any future legislation, or as a result of stricter enforcement of existing legislation, cannot reasonably be estimated. Under current levels of enforcement of existing legislation, management believes there are no possible liabilities, which will have a material adverse effect on the financial position or the operating results of the Group. However, the Group anticipates undertaking significant capital projects to improve its future environmental performance and to bring it into full compliance with current legislation.

(d) Legal contingencies

The Group's business activities expose it to a variety of lawsuits and claims which are monitored, assessed and contested on the ongoing basis. Where management believes that a lawsuit or another claim would result in the outflow of the economic benefits for the Group, a best estimate of such outflow is included in provisions in the consolidated interim condensed financial information (refer to note 14). As at 30 September 2017 the amount of claims, where management assesses outflow as possible approximates USD37 million (31 December 2016: USD60 million).

In January 2013, the Company received a writ of summons and statement of claim filed in the High Court of Justice of the Federal Capital Territory of Nigeria (Abuja) by plaintiff BFIG Group Divino Corporation

(“BFIG”) against certain subsidiaries of the Company. It is a claim for damages arising out of the defendants’ alleged tortious interference in the bid process for the sale of the Nigerian government’s majority stake in the Aluminium Smelter Company of Nigeria (“ALSCON”) and alleged loss of BFIG’s earnings resulting from its failed bid for the said stake in ALSCON. BFIG seeks compensatory damages in the amount of USD2.8 billion. In January 2014 the court granted the Company’s motion to join the Federal Republic of Nigeria and Attorney General of Nigeria to the case as co-defendants. On the latest hearing held on 6 November 2017 the Court has not upheld the claim. Though the plaintiff has the right to appeal the Court’s latest decision, the Company does not expect the case appeal to have any material adverse effect on the Group’s financial position or its operation as a whole.
